SUMMARY

ISTQB Certified SDET with strong analytical background, committed to delivering superior quality software products. Proficient in designing and executing comprehensive test cases, and skilled at identifying and documenting software defects. Hands-on experience with test automation using Playwright, Selenium WebDriver, and WebdriverIO. Quick learner. Bilingual.

TECHNICAL SKILLS

Languages: JavaScript, Python, TypeScript, HTML, CSS, SQL

Test Automation: Playwright, Selenium WebDriver, WebdriverIO, Pytest, Jest, Mocha

Developer Tools: Azure DevOps, Git, GitHub, Chrome DevTools, Visual Studio Code, PyCharm

Testing Tools: Postman, Zephyr, Jira, Android Studio, Charles Proxy

Types of Testing: UI Testing, API Testing, Smoke Testing, Regression Testing, Exploratory Testing, etc.

EXPERIENCE

QA Engineer / SDET

Sept 2025 – Present

QualityLogic

Remote

- Maintained and optimized 800+ automated tests in Azure DevOps pipelines, ensuring reliability across releases
- Automated 200+ tests using JavaScript and Playwright, increasing overall test coverage
- Participated in the Agile software release process, validating builds and ensuring high-quality deployments
- Reviewed pull requests and provided constructive feedback to maintain code quality and testing standards

Quality Assurance Tester, QA Team Lead

Feb 2024 – Sept 2024

Freelance(a single client for SQA and multiple clients via uTest)

Remote

- Led a testing project of 9 members for a security application; optimized workflows and increased test coverage
- Conducted functional, end-to-end, regression, and smoke testing of desktop, web and mobile applications in combination with browser extension
- Reported critical defects ensuring software met end-user needs; achieved 100% defect approval on uTest
- Validated system functionality across diverse platforms for clients in sectors including financial services, entertainment, hospitality, and food services by executing test cases within 24 hours of claiming
- Created from scratch 140+ test scenarios for API testing; identified 45+ critical API defects using Postman
- Demonstrated expertise in SQL and command line; verified seamless backend functionality

QA Analyst

May 2024 – Present

Oppia Foundation, Volunteer

Remote

- Performed cross-browser testing across multiple devices; ensured high quality of learning platform
- Identified and reported critical issues; improved software stability and user experience
- Collaborated closely with release team on GitHub, facilitated timely resolution of reported issues

QA Engineer

June 2024 – July 2024

Slopopedia Project, Internship

Remote

- Created 100+ test cases and maintained test documentation throughout SDLC using test management tools
- Automated 47% of manual tests with Playwright and TypeScript; increased test efficiency
- Conducted thorough manual testing and reported 40 defects in Jira; ensured effective issue tracking and resolution

Personal Banker, Mobile Specialist

Dec 2021 – Feb 2024

Wells Fargo Bank

La Mesa, CA

- Improved mobile app adoption via user-friendly demonstrations; achieved 75-100% mobile engagement
- Identified usability issues during mobile banking introductions, which led to a 100% customer satisfaction rate

Teacher (Russian, English)

Feb 2016 – May 2021

Multiple Locations

Anchorage, AK

- Created personalized learning experiences and curricular materials for each of 50+ students
- Analyzed student performance data, adjusted teaching strategies resulting in an 80% decrease in exam failures

EDUCATION AND CERTIFICATIONS

Certified Tester Foundation Level | *ASTQB - ISTQB in the U.S.*

BA in Education with Honors | *Mordovian State Pedagogical Institute*
